

The Sentinel™ Mini-Pro is a high quality camera, designed to improve visibility and reduce blind-spots on a variety of commercial vehicles including vans, trucks and buses, whilst being extremely discreet.

With enhanced low-light ability, unrivalled reliability and a universal mount, this camera can be used internally or externally, as a forward, side or a reverse camera.

Combined with a Sentinel™ 4 or 8 Channel DVR the Mini-Pro Camera is the ultimate weapon to combat insurance fraud and provide irrefutable evidence to counter any claim made against the transport operator.

Wide Lens

IP68

- Eliminates blind spots with wide angle lens
- Fits anywhere on its universal mounting
- Is discreet, durable, reliable and professional
- Reduces costly fleet insurance premiums
- Assists with safer and easier manoeuvring
- Reduces vehicle damage and potential vehicle downtime
- Deters potential thieves and vandals
- Works well in low light conditions
