

# 360° SURROUNDVIEW

360° SURROUNDVIEW  
SYSTÈME DE VUE 360°

Sentinel Systems' SurroundView is a unique 360° system offering complete camera coverage of the vehicle. Unlike many other 'bird's eye view' solutions, our display maintains excellent image clarity with no object distortion. Displayed in H-view on a high-resolution in-cab monitor, the German-engineered cameras ensure that individuals or other road users moving around the vehicle are never lost from view.

When combined with our mobile DVRs, operators can capture and review over 30 days of SurroundView footage, ensuring any incidents are managed without data loss.

- Unrivalled low-light ability
- High quality images with no distortion
- Robust bracket protects IP69K cameras
- German-manufactured quality
- H-view display ensures visibility around the entire vehicle
- Reduces risk of injury to personnel and the public
- Reduces risk of damage to the vehicle

Side Scan System

### Specifications

#### Camera

Image Sensor:	1/4", CMOS
TV System:	PAL/NTSC
Exposure Time:	1/30... 1/62500 sec.
Min. Illumination:	< 0.5 lux
Video Output:	FBAS 1 Vpp at 75 Ω
Operating Voltage:	10 V—36 V
Power Consumption:	Heating off: approx. 1 W Heating on: approx. 4 W
Operating Temp:	-40°C to +85°C
Outside Dimensions:	65mm x 59 mm x 50 mm (W x H x D)
Vibration Resistance:	50 G
IP Rating:	IP69K

#### Camera Bracket

Dimensions:	90mm x 100mm x 73mm (W x H x D)
-------------	------------------------------------

#### 7" Monitor

Video Format:	PAL/NTSC
Resolution:	800 x 480 pixels
Brightness:	500 cd/m <sup>2</sup>
Operating Voltage:	12/24 V
Camera Inputs:	4
IP rating:	IP 65
